Munitions dumps for the Otopeni airfield are situated approximately eight hundred meters from the Balotesti railroad station on the Bucharest-Snagov line. They consist of five groups of three large wooden frame structures roofed with asphalt shingle. On the north, east, and west sides of these structures earth is piled to the eaves. These buildings are laid out in U shape near a small acacia forest bordering the structures on the eastern side toward the Otopeni airport.

This document is hereby regraded to **CONFIDENTIAL** in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
